PLANNING FOR LEARNING THROUGH PLAY

General Legal Requirement

- *Providers must plan and organise their systems to ensure that every child receives an enjoyable and challenging learning and development experience that is tailored to meet their individual needs.*

Our setting plans to provide the children attending with opportunities that will support and promote their overall development in a safe, stimulating and caring atmosphere, created by appropriately trained, knowledgeable staff with the involvement of all families within our community who are interested in and support our aims.

We take care to provide activities which use equipment appropriate to the age and stage of development of the children attending our setting which will stimulate their interest and encourage investigation as well as enabling the children to practice existing skills and to build on those skills to acquire new ones.

We are aware of the importance of reflecting all members of society not just those who attend our setting but also the local community and society in general in a positive way, we ensure that activities, equipment and displays provide a balanced view and also allows children to show their own individual creativity without pressure to have an adult directed “perfect” end product.

All children need to experience a balance of adult led and freely chosen or child initiated activities and experiences tailored to their stage of development and taking account of their individual needs. We undertake sensitive observational assessment in order to plan to meet our children’s needs.

The activities and experiences planned for the children cover the seven Areas of Learning and Development described below.
